# WELCOME...

## **ACKNOWLEDGEMENT OF COUNTRY**

The Brooks Adelaide Marathon Festival respectfully acknowledges that this event is being held on the traditional lands of the Kurna Meyunna peoples, and pays respect to Elders both past, present and future.

Congratulations and all the best to every runner participating in the 48th Brooks Adelaide Marathon Festival this year across all the distances. A big thank you to our new major sponsors for this year's event in Brooks and ProHealth Care, alongside the continued support from RunDNA.

Whether you're running for fun, chasing personal goals, or supporting Breakthrough Mental Health or Indigenous Marathon Foundation, we wish you all the best on race day. Hopefully you've enjoyed the journey in getting to this point, and embrace crossing the finish line and ticking off your goals whatever they may be. Just remember, it's an achievement in itself making it this far, so make sure to celebrate the little wins alongside the big ones!

Thank you for continuing to support the Brooks Adelaide Marathon Festival. It's amazing how much this event continues to grow year on year.

From everyone at the SARRC, thank you and good luck.

See you on race day!

Cheers,  
Adam Taylor  
SARRC President

# FUNDRAISING

SARRC is proud to partner with the Indigenous Marathon Foundation and Breakthrough Mental Health Research Foundation to extend the reach and impact of our events. You can use any of our nine events across the year to fundraise individually or as a team.

The Indigenous Marathon Foundation uses running to drive social change, promote healthy lifestyles, and inspire Indigenous Australians to achieve personal and community goals.

Breakthrough Mental Health Research Foundation is Australia's only dedicated mental health research charity, working to make life free from mental illness through ground breaking research and innovation

Your fundraising efforts will be used to fund vital research into the causes, treatment and prevention of mental illness and to deliver community projects and leadership development programs that build resilience and improve physical, mental, and community wellbeing—
